Project Concept

1 Player Control	You control a		in this	
	rabbit	side view	game	
	where		makes the player	
	the up arrow key	jump over obstacles		
2 Basic Gameplay	During the game,		from	
	rocks, logs, holes, bushes, carrots	appear	the right side of the screen	
	and the goal of the game is to			
	avoid obstacles, collect carrots, and survive as long as possible			
3 Sound & Effects	There will be sound effects		and particle effects	
	for jumping, collecting carrots, and hitting obstacles	dust when the rabbit lands, sparkles when collecting carrots, and impact effects when hitting obstacles		
	[optional] There will also be			
	rabbit running animation, moving forest background, and screen shake when the rabbit crashes			
4 Gameplay Mechanics	As the game progresses,		making it	
	obstacles move faster and appear more frequently	more challenging for the player		
	[optional] There will also be			
	golden carrots give extra points and encourage the player to take more risks			
5 User Interface	The	will	whenever	
	score	increase	the player collects carrots or survives longer	
	At the start of the game, the title		and the game will end when	
	Forest Dash	will appear	the rabbit hits an obstacle

Other
Features

The game will have a forest background, a restart button, a score display, and simple rabbit animations.

Project Timeline

Milestone	Description	Due
#1	- Create the rabbit movement, including running forward and jumping with the up arrow key. - Set up the side-view camera so it follows the rabbit during gameplay. - Add obstacles such as rocks, logs, holes, and bushes that appear from the right side of the screen. - Add carrots as collectibles, a score system, and collision detection for game over. - Add sound effects, particle effects, rabbit animation, background movement, and final polish.	14/06
#2	- Functional feature(s) by milestone #2	mm/dd
#3	- Functional feature(s) by milestone #3	mm/dd
#4	- Functional feature(s) by milestone #4	mm/dd
#5	- Functional feature(s) by milestone #5	mm/dd
Backlog	- Add different animal characters. - Add different forest levels. - Add power-ups such as speed boost or shield.	15/06
